Venator Materials PLC Launches New Sustainability Report on Earth Day

WYNYARD, UK, April 22, 2024 – Venator Materials PLC, a leading supplier of specialty chemicals and ingredients, is excited to announce the launch of its latest sustainability report on Earth Day, April 22. The report highlights Venator's ongoing commitment to environmental responsibility and showcases the company's progress towards achieving its sustainability goals.

As part of Venator's dedication to transparency and accountability, the sustainability report provides stakeholders with a comprehensive overview of the company's environmental, social, and governance (ESG) performance over the past year. Key highlights from the report include:

- Achievement of a Gold rating from EcoVadis, a prestigious recognition of Venator's strong performance in sustainability.
- Implementation of new initiatives to minimize waste and promote circular economy practices.
- Continued support for local communities through various social responsibility programs and partnerships.

"We are proud to launch our latest sustainability report on Earth Day, reaffirming our commitment to creating a more sustainable future for all," said Dr Rob Portsmouth, Executive Vice President, Sustainability, EHS and HR. "This report not only showcases our progress but also serves as a testament to the dedication and hard work of our team."

In addition to highlighting achievements, the sustainability report details the significant progress made towards the sustainability targets published in 2023, demonstrating the company's ongoing commitment to driving positive change and making a meaningful impact on the world.

The new sustainability report is available for download on the Venator website venatorcorp.com/sustainability. For more information about Venator Materials PLC and its sustainability initiatives, please visit venatorcorp.com

About Venator

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO₂ business, and Performance Additives, which consists of our functional additives, color pigments and timber treatment businesses. Based in Wynyard, U.K., Venator employs approximately 2,700 associates and sells its products in more than 109 countries.

Cautionary Statement Concerning Forward-Looking Statements

Certain statements contained in this communication constitute “forward looking statements”, including statements regarding our environmental goals, commitments, strategies and related business and stakeholder impacts. These forward-looking statements represent Venator’s expectations or beliefs concerning future events, and it is possible that the expected results described in this communication will not be achieved or will be materially different than as described. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of Venator’s control, that could cause actual results to differ materially from the results discussed in the forward-looking statements. These risks and uncertainties include, without limitation, any failure to meet stated environmental goals and commitments, and our ability to execute our strategies in the time frame expected or at all, global sociodemographic and economic trends, changing government laws and regulations, technological innovations, climate related conditions and weather events, our ability to gather and verify data regarding environmental impacts, the compliance of various third parties with our policies and procedures, and our expansion into new products and geographic regions. Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law or regulation, Venator does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for Venator to predict all such factors. Readers should not place undue reliance on the forward-looking statements made in this communication.
