## Venator launches first sustainability report 'Expertise in Action'

Venator is committed to working for a sustainable future and today we are pleased to announce the launch of our first Venator sustainability report. 'Expertise in Action' showcases our efforts and performance in key areas on our journey to discovering innovative solutions for a more sustainable future.

Simon Turner, President and CEO said: "While this year marks the first time that Venator is releasing a sustainability report, we have a long history of introducing innovative solutions in our operations and our product offerings to meet societal challenges. Sustainability represents a real opportunity for a business like ours to leverage our expertise and innovative capability against the challenges faced by society."

Robert Bird, Senior Product Manager EHS continued: "This report covers performance across key health, safety and environmental areas and highlights how our associates are helping us introduce innovations to make the world safer, cleaner and more sustainable. Together we are making significant progress with our sustainability actions."

Our sustainability strategy consists of four key objectives, which are:

1. Being responsible via our commitment to ZERO Harm
2. Minimising our environmental impact
3. Growth through innovative, sustainable solutions
4. Measuring our footprint

Creating a sustainable future while posing ZERO Harm to people and the environment is our goal. Innovation and teamwork is how we get there. To read the full report click [here](#)

### About Venator

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO<sub>2</sub> business, and Performance Additives, which consists of our functional additives, color pigments, timber treatment and water treatment businesses. With our HQ in Wynyrd, U.K., we employ approximately 3,700 associates worldwide and sell our products in more than 120 countries.
