## Venator launches new webinar series to share industry expertise and innovation

WYNYARD, UK – Venator, a leading supplier of specialty chemicals and ingredients, is launching a new webinar series ‘*The Chemistry Conversation*’ designed to share insights, innovations and best practices with customers and industry professionals. The series will feature expert speakers from Venator and guest specialists, covering key topics that impact the sectors that use our products, including coatings, plastics and cosmetics.

The webinars will provide an interactive platform for learning about the latest advancements in TMP-free TiO<sub>2</sub> products, sustainability trends, regulatory updates and technical solutions that help businesses enhance performance and efficiency.

“We are committed to supporting our customers with the knowledge and tools they need to succeed,” said Dr Jo Douglas-Harris, Global Marketing Manager. “This webinar series allows us to engage directly with our industry partners, share valuable expertise, and discuss how our innovations can help solve real-world challenges.

The first session, “TMP-free TiO<sub>2</sub>: Current Innovations and Future Perspectives”, will take place on April 11, focusing on Venator’s innovative approach to TMP reclassification, delivered by Venator experts Dr Iain Johnson, Innovation Manager and Angela Dunn, Product EHS and Regulatory Systems Specialist.

Future webinars will explore critical topics such as sustainability and regulatory trends that are shaping the future of TiO<sub>2</sub>. Attendees will have the opportunity to engage in live Q&A sessions and insightful discussions.

Participation is free, and attendees can register at [venatorcorp.com](http://venatorcorp.com)

### **About Venator**

Venator is a global manufacturer and marketer of chemical products that comprise a broad range of pigments and additives that bring color and vibrancy to buildings, protect and extend product life, and reduce energy consumption. We market our products globally to a diversified group of industrial customers through two segments: Titanium Dioxide, which consists of our TiO<sub>2</sub> business, and Performance Additives, which consists of our functional additives, color pigments and timber treatment businesses. Based in Wynyard, U.K., Venator employs approximately 2,300 associates and sells its products in more than 109 countries.
